COMFORT PLUS

IT. Durante la pedalata, in base all'inclinazione del corpo, il peso sulla sella viene distribuito in quantità e posizioni diverse. Grazie alla tecnologia 3-ZONE Selle Bassano offre un prodotto in grado di assorbire questi pesi in ogni situazione, dalla pedalata tranquilla a quella sportiva.

EN. The body inclination of the rider, while riding the bicycle, could be different and so different is also the distribution of the weights on the saddle. Thanks to the 3-ZONE technology, Selle Bassano offers a product that could absorb the different weights in every situation: both with comfortable and sports pedalling.

DE. Während der Fahrt, der Neigung des Körpers entsprechend, wird das Gewicht auf dem Sitz je nach Position verlagert. Dank 3-Zonen-Comfort-Plus-Technologie bietet Selle Bassano ein Produkt, das die verschiedenen Gewichte in jeder Situation - von der ruhigen bis zur sportlichen Fahrt - ausgleichen kann.

3ZONE

SPORT ZONE

IT. Area localizzata sul naso della sella, nella zona interessata alla pedalata sportiva; grazie alla sua densità aumenta il comfort durante la corsa.

EN. Area located on the nose of the saddle, in the area involved in sports pedaling; thanks to its density it increases comfort during running.

DE. Bereich an der Sattelnase, im Bereich des sportlichen Tretens; Dank seiner Dichte erhöht es den Komfort beim Laufen.

SOFT ZONE

IT. Canale centrale appositamente studiato per alleggerire i pesi sulla zona perineale del ciclista.

EN. Central channel specially designed to lighten the weights in the perineal area of the cyclist.

DE. Zentraler Kanal, der speziell entwickelt wurde, um die Gewichte im Dammbereich des Radfahrers zu verringern.

HI-DENSITY PAD

IT. La parte posteriore delle selle 3Zone ha una densità appositamente creata per evitare traumi alle ossa ischiatiche del ciclista.

EN. The back area of a 3Zone saddle has a density thought to avoid shocks of the ischiatic bones of the rider.

DE. Der hintere Teil der 3Zone Sattel hat eine eigens geschaffene Dichte, die Traumen am Sitzbein des Radfahrers vermeiden soll.
